VRBO Update

Tim Gagen updated the membership on the status of the short-term vacation rental program. The letter to the major website owners is being finalized and will be sent soon. The letter will grant an amnesty period which will waive fees and penalties to owners who do short-term rentals and who come forward and perform a self-audit of their rentals over the past three years. CAST needs to know which of its members are okay with the amnesty terms. Members need to provide a contact person from each town. The CAST VRBO committee will finalize negotiations with the vendor that was chosen after we see if we get any results from the engagement letter. We will also begin campaign with county assessors to get them on board with the program. What it will cost each town to participate in the program will be determined once negotiations with the vendor are finalized.
