Department of Local Affairs

# Key Takeaways

**Everything is connected** - a job is a person and a home is where that person sleeps at night

## **Population Growth is slowing**

Births down, deaths up, slowing net migration

Less kids here means more need for net migration to sustain growth

## **Aging**

The US is aging, Colorado is aging, Ski Towns are aging

An older population creates new dynamics (jobs, service demands, tax etc)

## **Job Growth slowing**

Not necessarily because job demand is slowing, but due to labor supply

Retirements mean more jobs that need to be replaced

Less young people means less people to fill those jobs

# Big Picture Numbers

	2010-2020		2020-2021		2021-2022		2022-23	
United States	22.3MM	7.4%	520k	0.1%	1.256MM	0.4%	1.643	.5%
Colorado	744.5k	14.8%	26.5k	0.5%	27.7k	0.5%	36.5	.6%
Colorado Rank	9th	6th	11th	20th	12th	19th	9th	18th

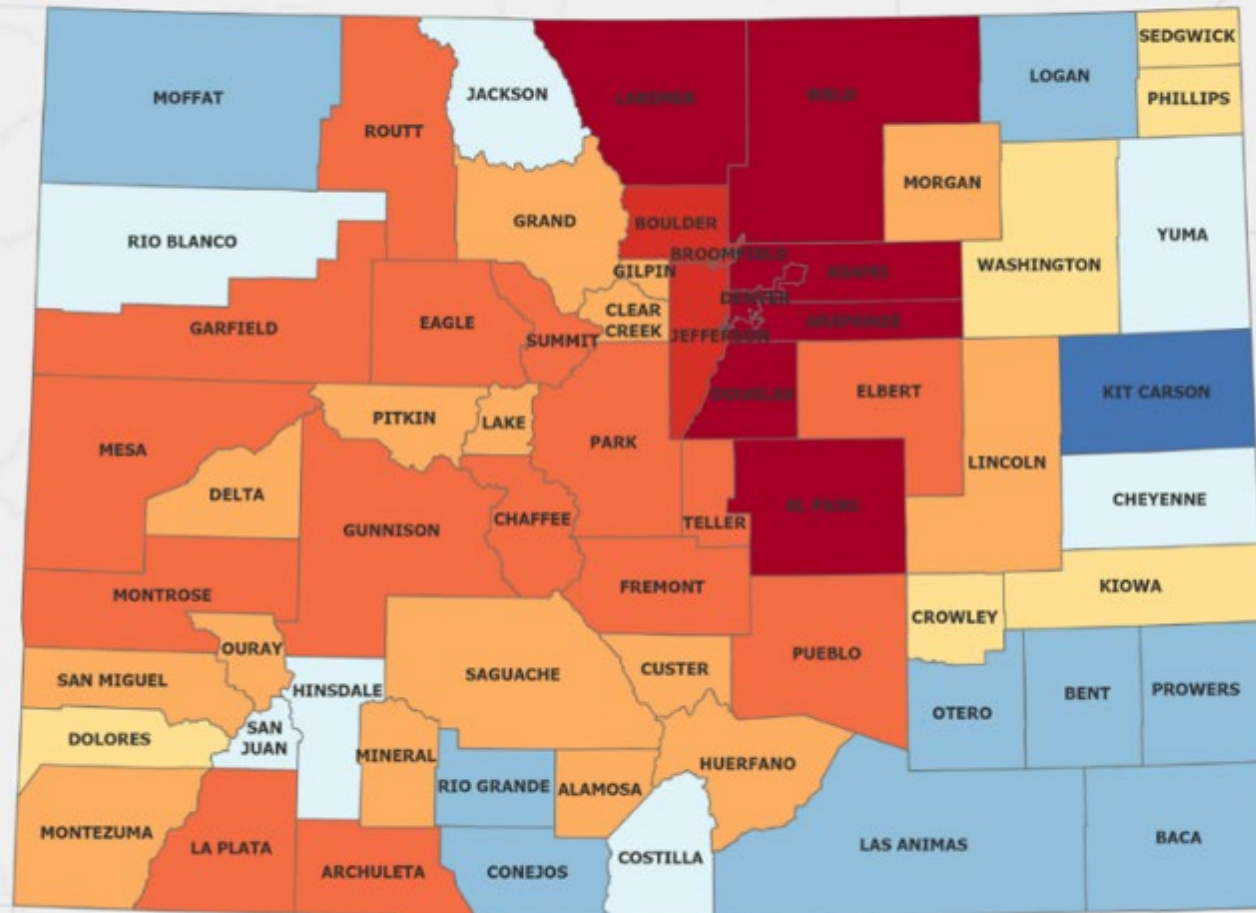

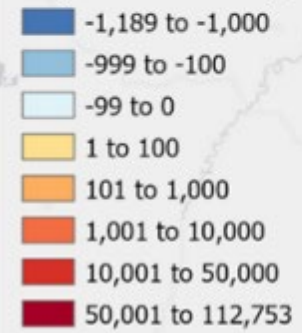

- 2010 - 2020
  - Second slowest decade for US in terms of growth
- 2020 - 2021 - slowest ever recorded growth rate
  - 17 states lost population
- 2021 - 2022
  - 19 states lost population
- 2022-2023
  - 8 states lost population - fewer deaths, immigration increase

## Total Population Change

2010 - 2020

### Population Change

November 2021

## Total Population Change

2020 - 2022

### Population Change

Source: Colorado State Demography Office

April 2023

2010 to 2020 - 95% of population and job growth along Front Range

2020 to 2022 - Decreased to 75%, with a number of Denver Metro Counties losing population

2022 to future - Forecast to return more of a pre-COVID trend

Components of Change

**COLORADO**  
Department of Local Affairs

Components of Colorado Population Change, 1985-2022

	2010-2019	
	Total	Ann Avg
Births	652,888	65,289
Deaths	(351,479)	(35,148)
Net Migration	456,651	45,665
Total Population	758,060	75,806
Percentage	13.6%	1.3%

	2020-2022	
	Total	Ann Avg
Births	187,082	62,361
Deaths	(138,380)	(46,127)
Net Migration	55,121	18,374
Total Population	103,823	34,608
Percentage	0.9%	0.3%

# Components of Population Change 1985-2022, Colorado

## Ski Counties

	2010-2019	
	Total	Ann Avg
Births	33,153	3,315
Deaths	(14,573)	(1,457)
Net Migration	6,843	684
Total Population	25,423	2,542
Percentage	7.2%	0.7%

	2020-2022	
	Total	Ann Avg
Births	8,853	2,951
Deaths	(5,648)	(1,883)
Net Migration	1,541	514
Total Population	4,746	1,582
Percentage	0.6%	0.2%

### Eagle County Births and Deaths, 1970 to 2050

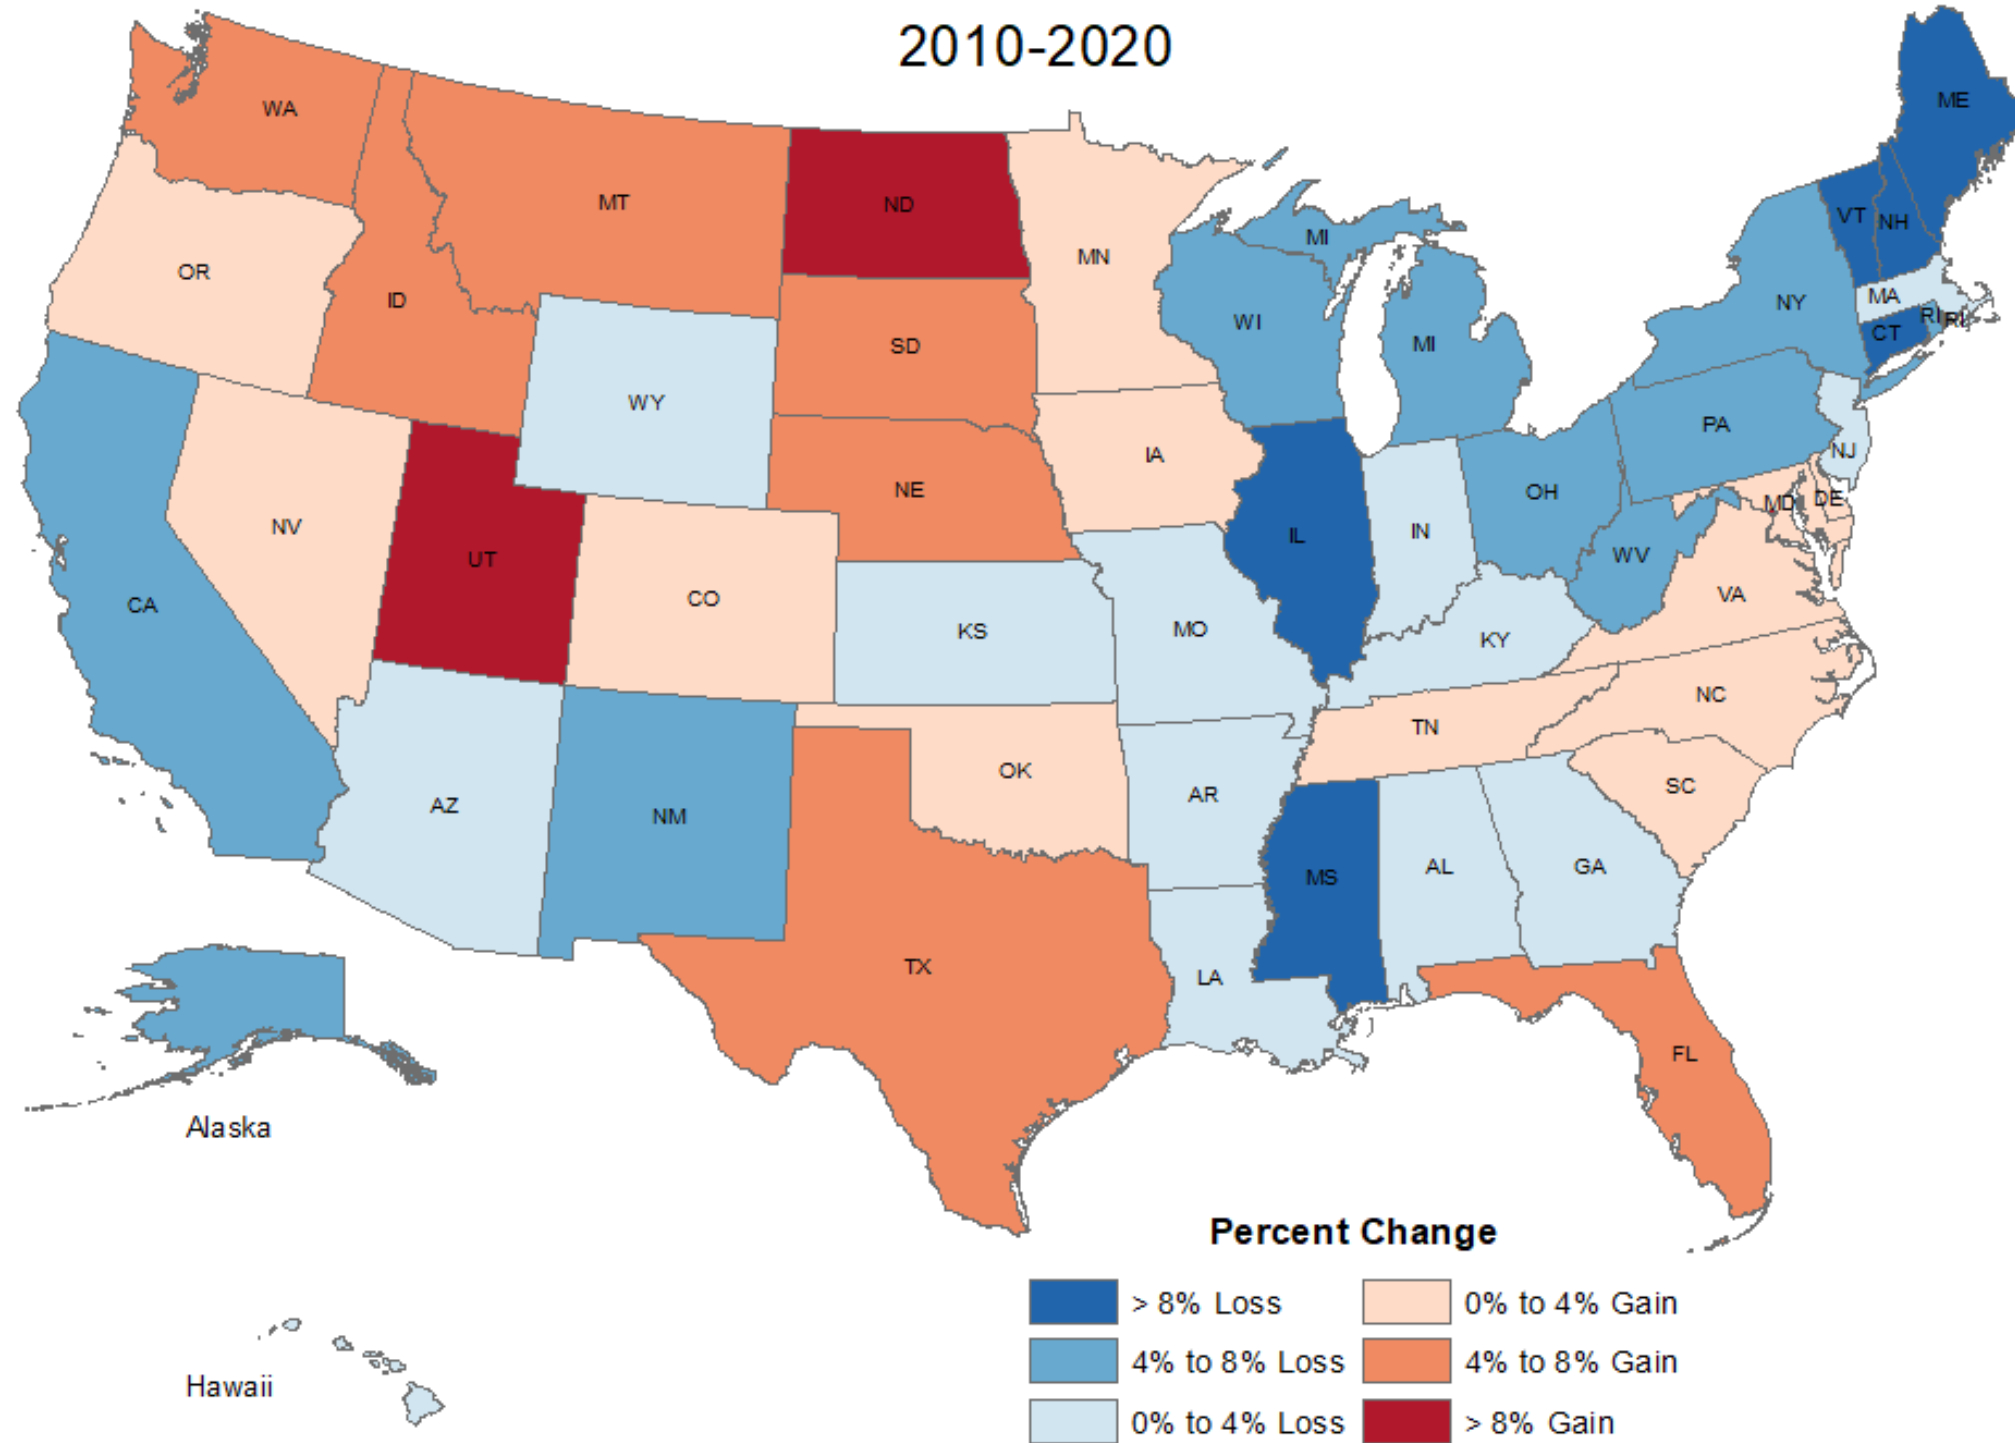

### Summit County Births and Deaths, 1970 to 2050

# Change in Under 18 Populations

2010-2020

Source: US Census Bureau  
Map by Colorado State Demography Office

Created October 13, 2021

- Births down 650,000 in the US compared to peak in 2007.
- Population Under 18 Declined by over 1,000,000 over the decade
- 27 states lost population under 18

**COLORADO**

Esri, HERE, Garmin, USGS, EPA, NPS

**COLORADO**  
Department of Local Affairs

# Natural Increase

## Births Down

Births in the state have been decreasing since 2007

Some counties are projected to see increasing births due to net migration of younger adults

Decreasing under 18 population in donor states and many Colorado counties

Births still largest driver of population growth in the state (more than net migration)

## Deaths Up

Colorado is getting older

# Jobs and Net Migration

## Jobs are People

Historically job growth has driven net migration to the state

## Who are migrants

Generally younger (20s and 30s)

Not all counties - some may attract older adults

## The Future

Vacancies mean more young people required just to fill existing jobs

Work from home means a job doesn't have to be created in Colorado to exist here

Likewise Colorado firms can hire people in other states

What trends will stay?

# Age Distribution by Year, Colorado

	1990	2023	2050
Under 35	55.1%	45.7%	39.5%
35 to 64	35.0%	38.0%	39.8%
65 and Over	10.0%	16.3%	20.7%

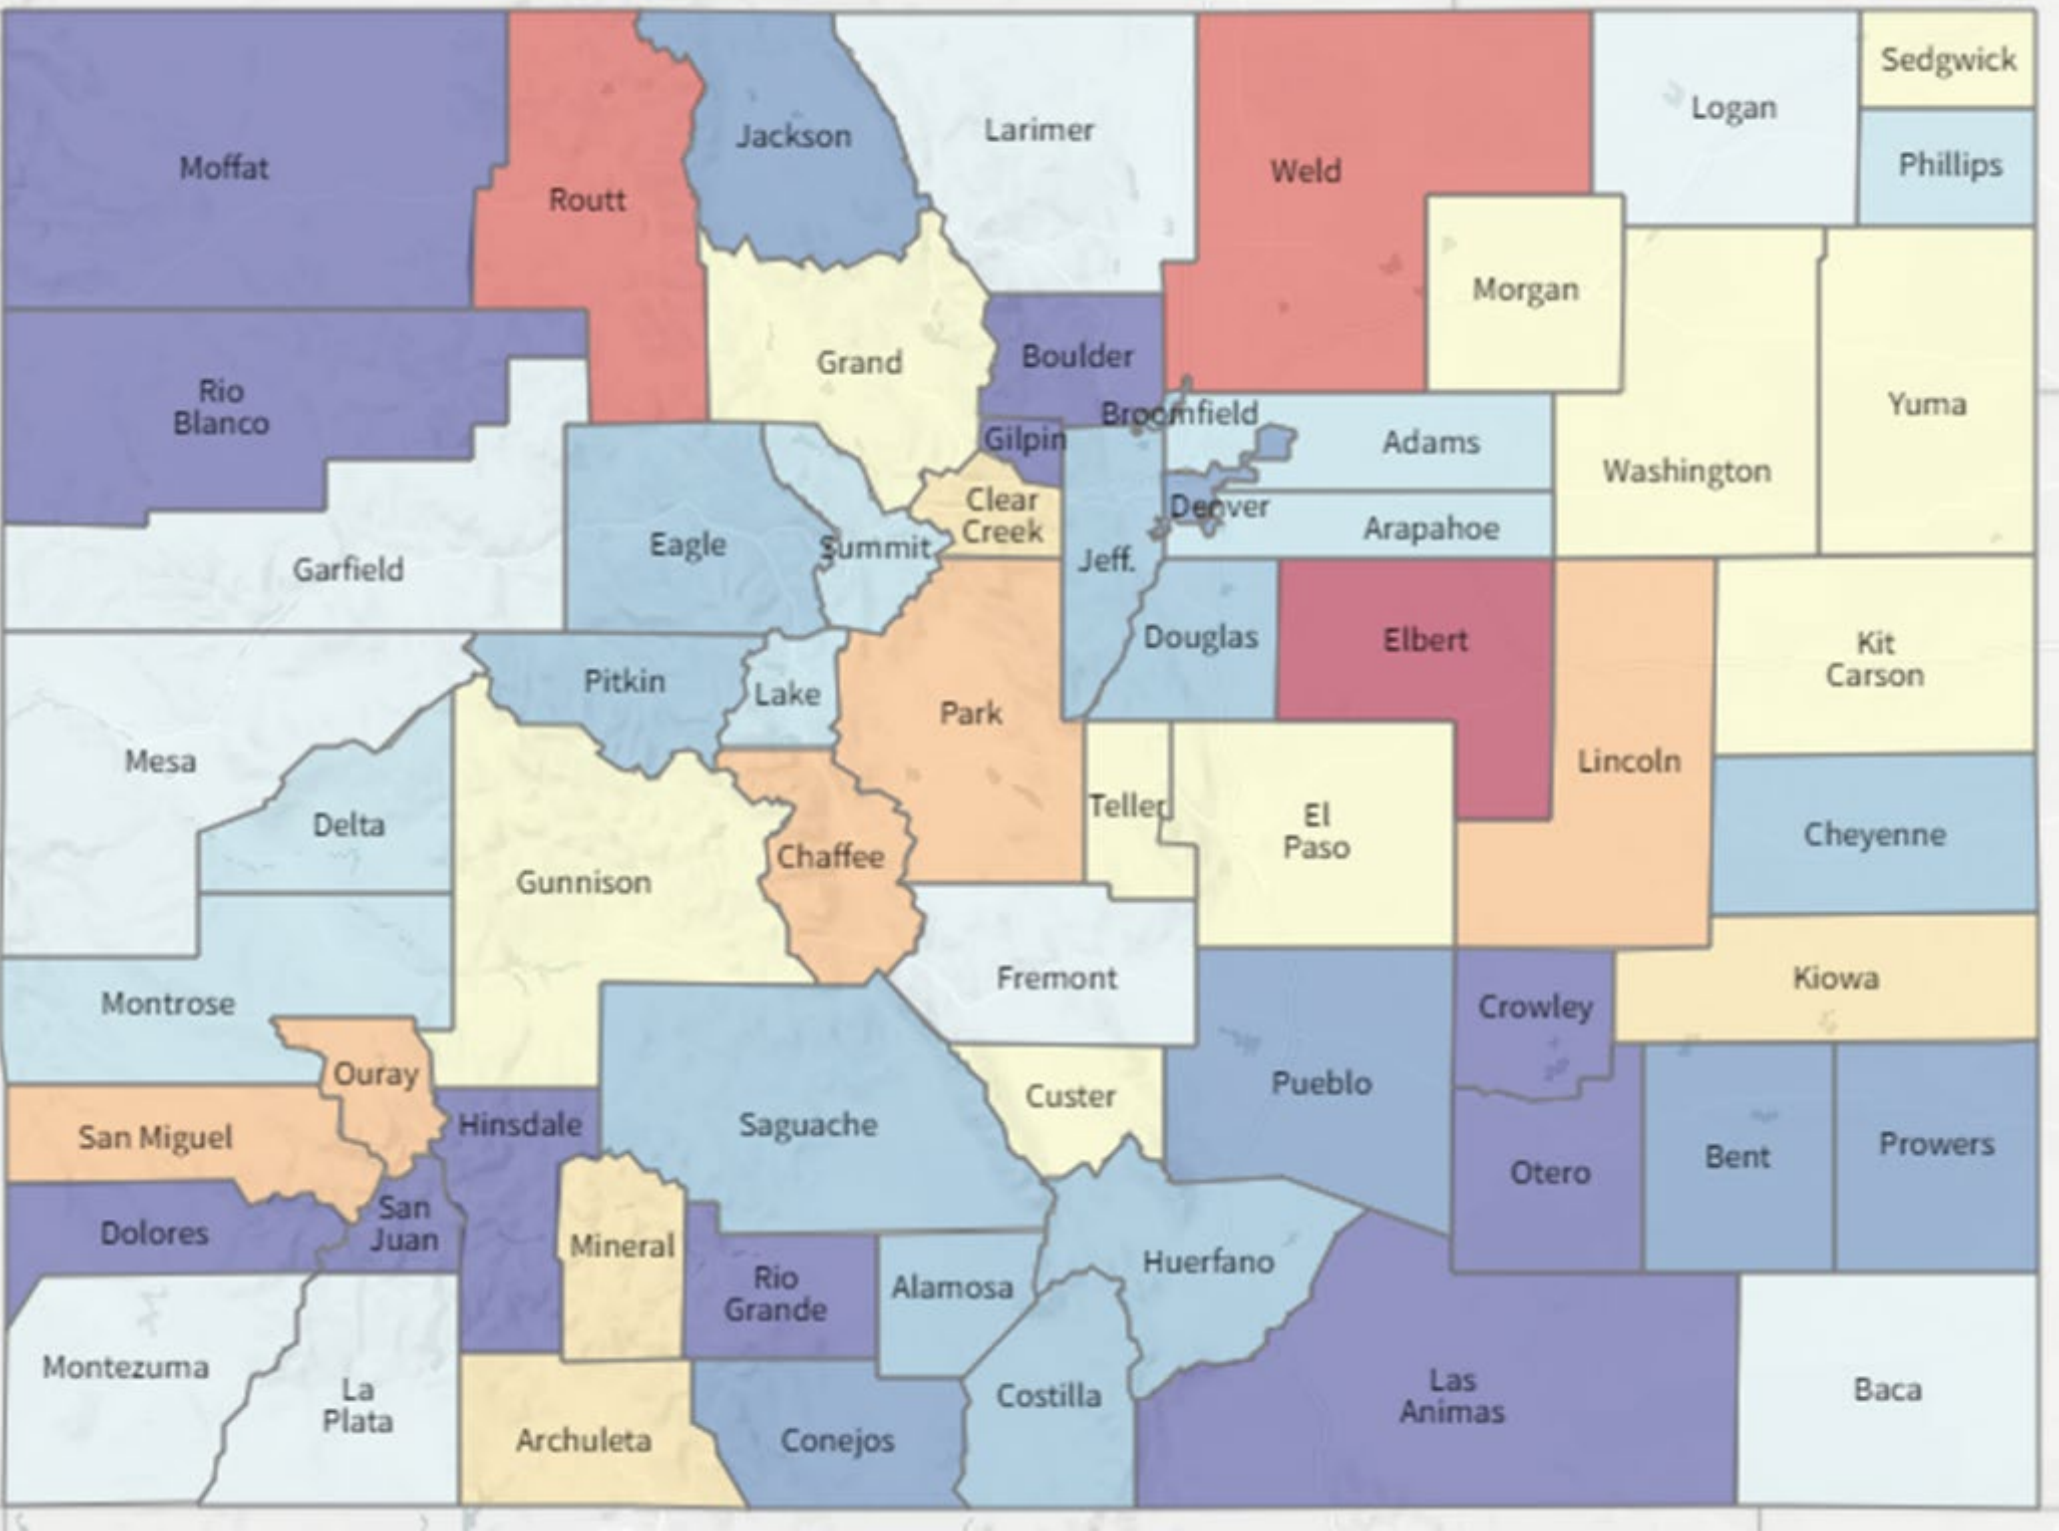

# Age Distribution by Year, Colorado Ski Counties

	1990	2023	2050
Under 35	56.1%	41.2%	37.8%
35 to 64	36.1%	40.3%	39.9%
65 and Over	7.8%	18.5%	22.3%

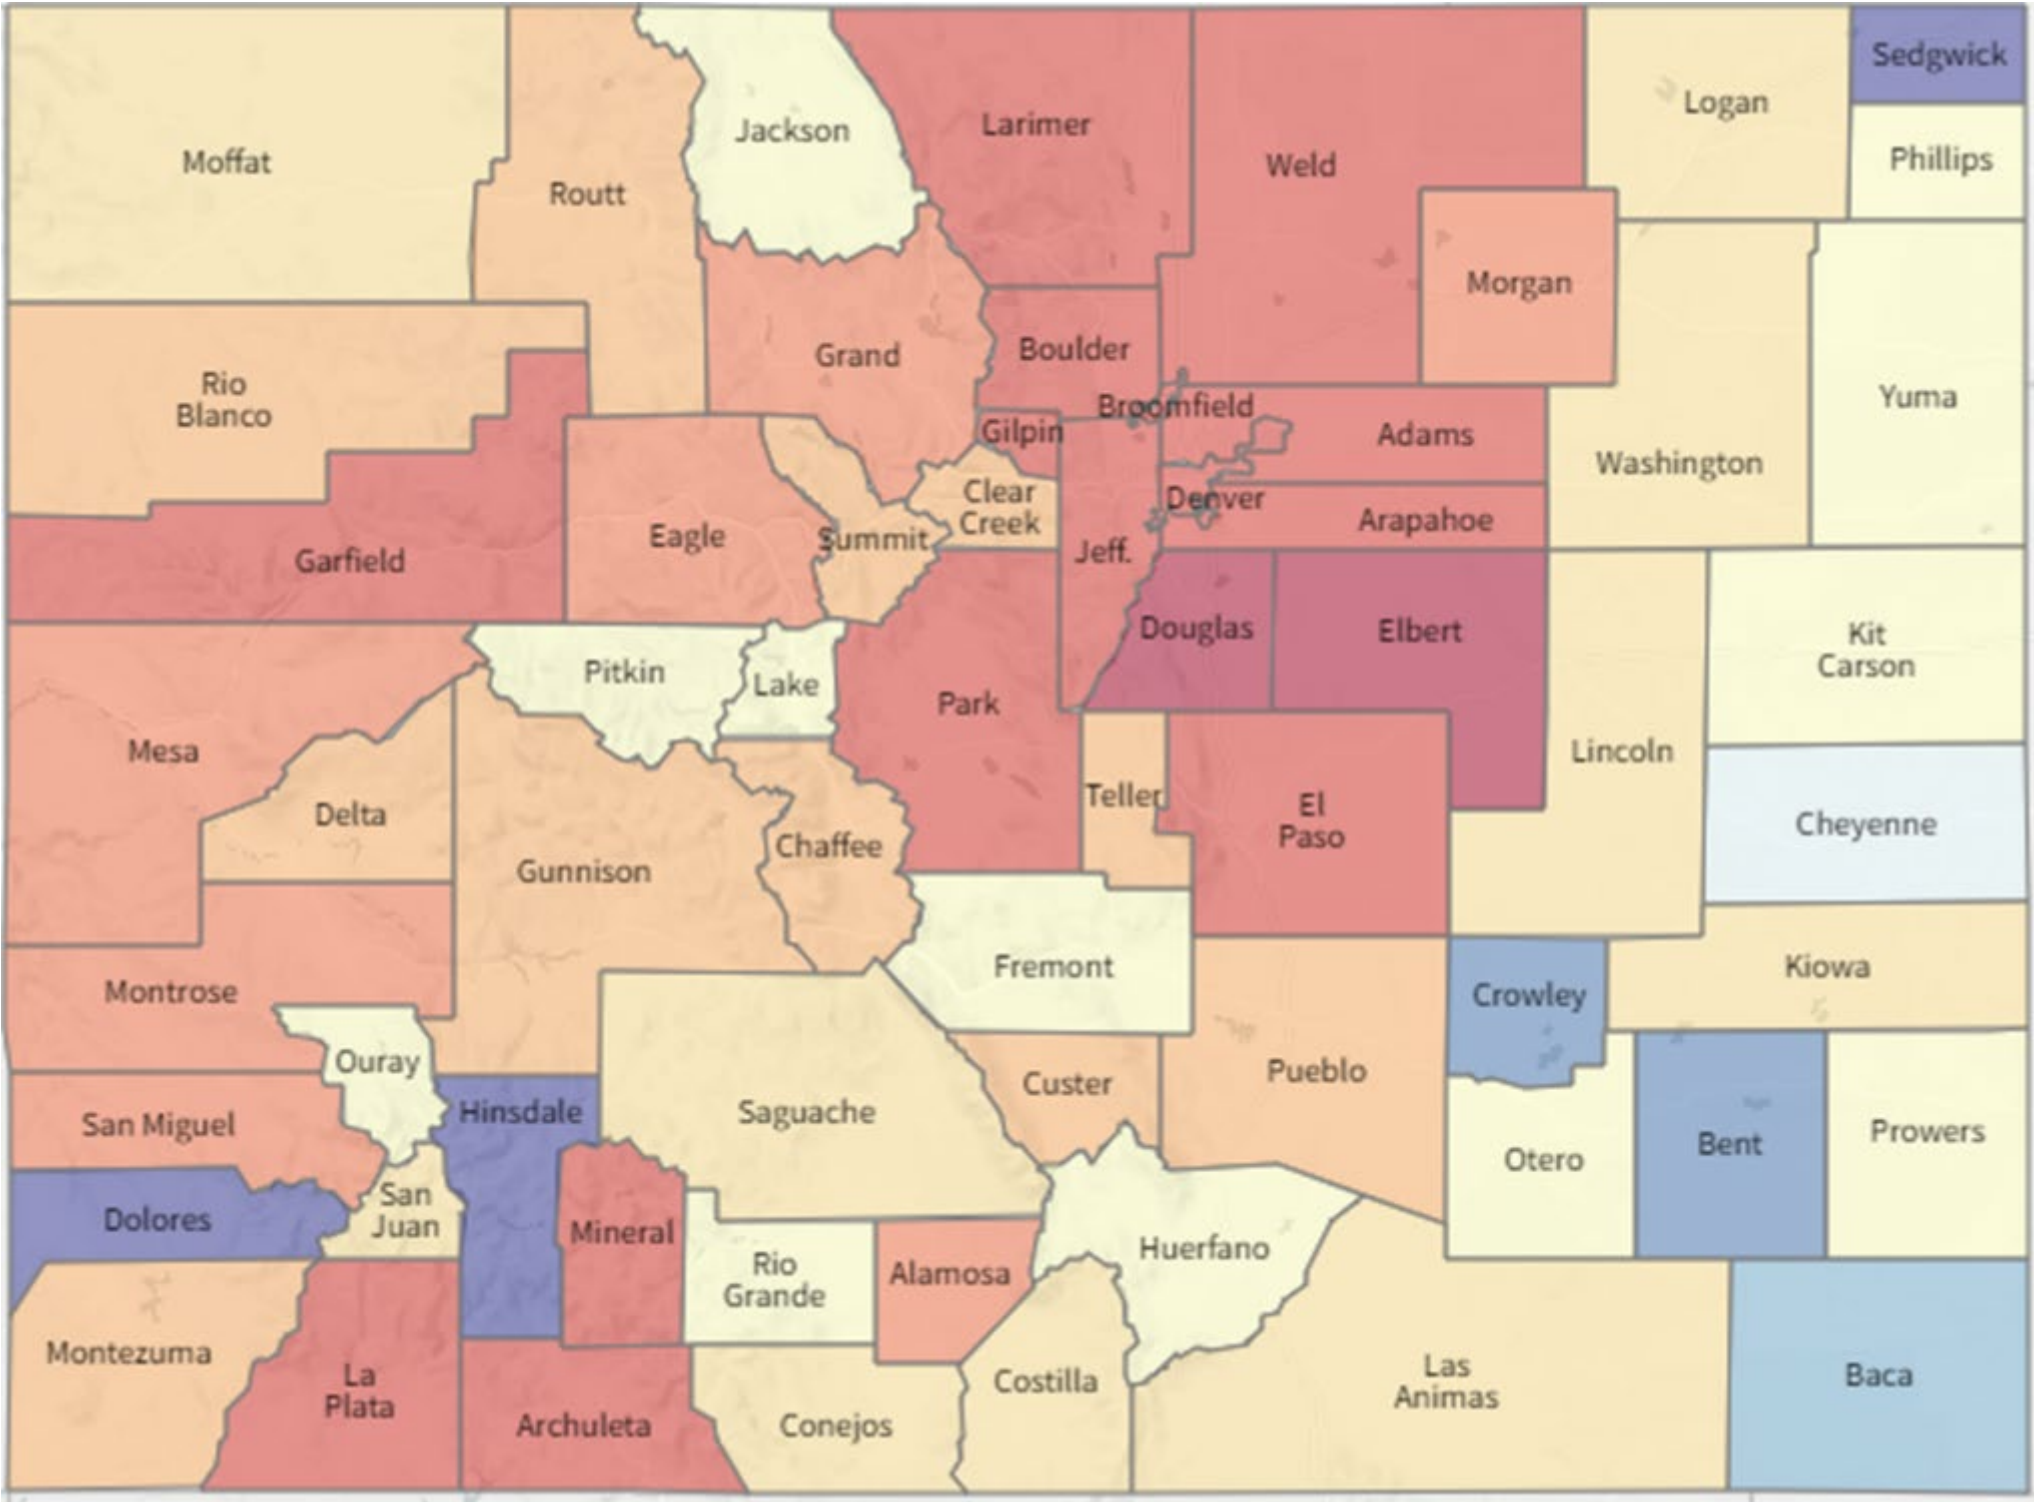

# Change in the School Age Population 2020-2030

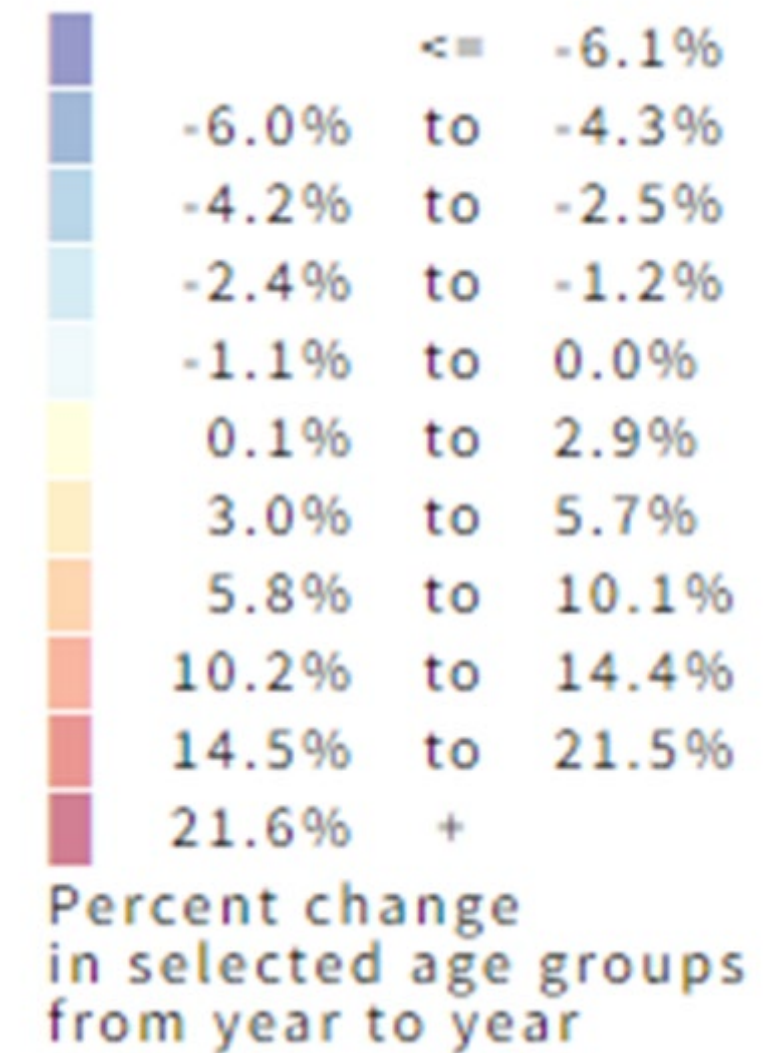

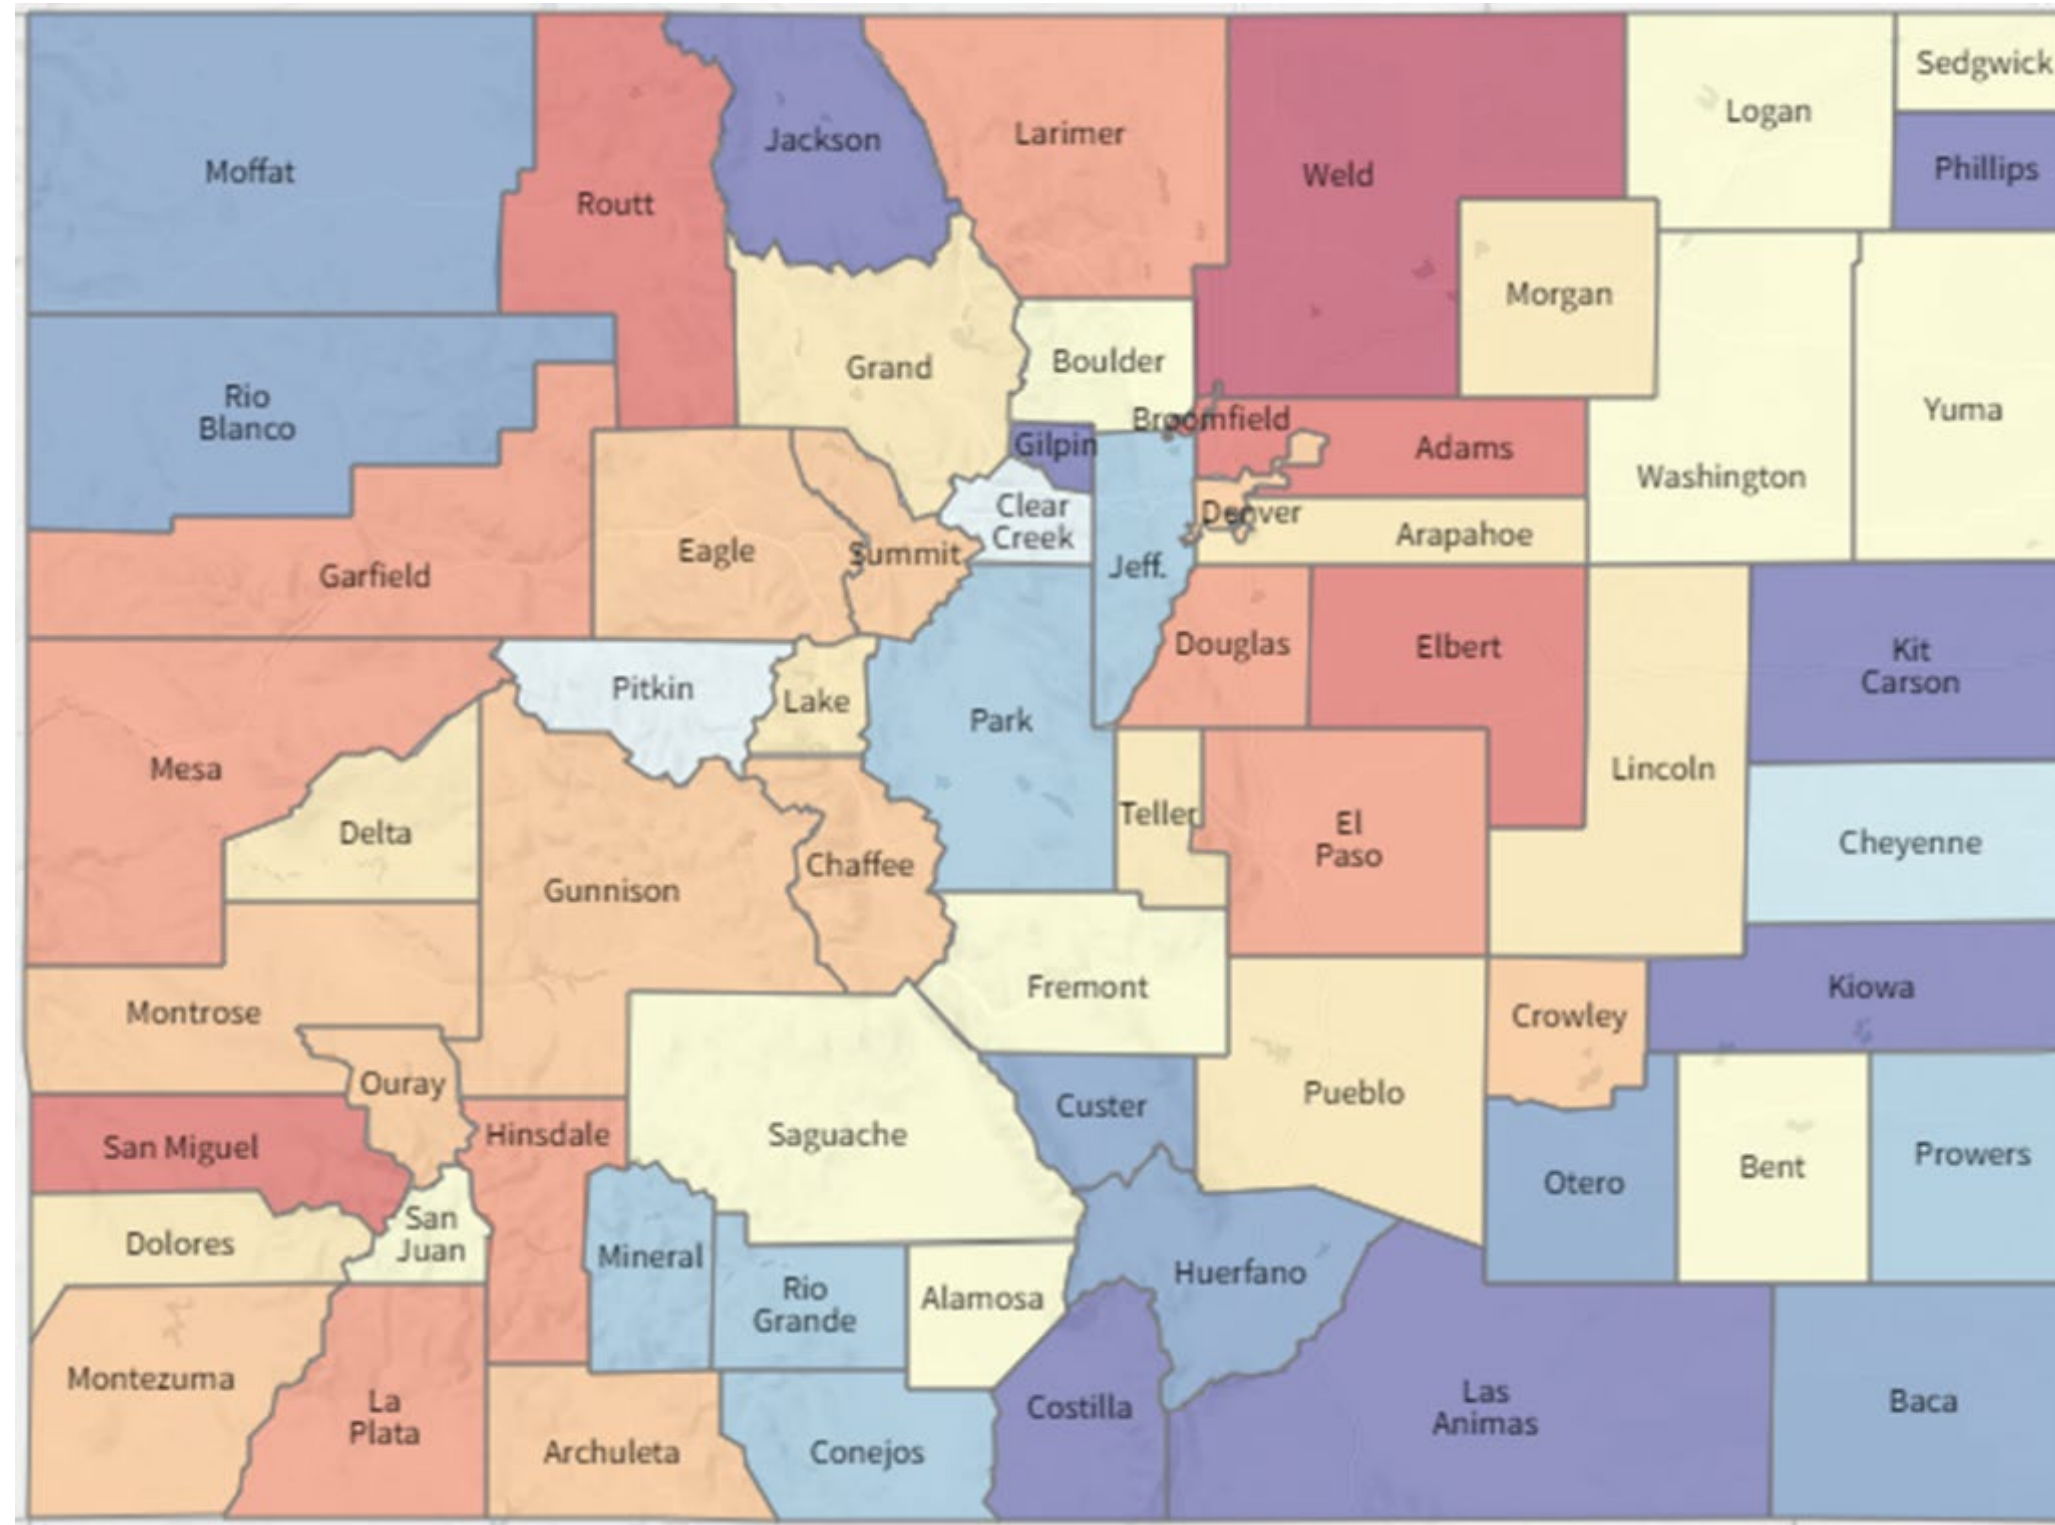

# Change in the Older Adult Population 2020-2030

# Change in the Working Age Population

## 2020-2030

# Age and Aging

## Consumer demand

Job creation, occupations, wages

## Labor force

Older, retirements

Slower growth in working age, especially after 2027 given lower level of births

Over the next 5 years 200,000 retirements, assuming increased participation for everyone ages 55+

## Housing

Household size, mobility, owners, accessibility

Retirees aging in place. Where will new workers live?

Millennials aging into prime home buyers and 2nd home ownership

Gen Z aging into apartments and first time home buying

Services for older adults, if they can't age in place will have to leave

# Trends

Housing

**COLORADO**  
Department of Local Affairs

## Change in Household Population and Housing Units

### Concern with:

- Boom and bust cycle of housing construction.
- Creates long run impacts on the industry.
- Long run impact on housing costs.
- Ability to support business

## Single and Multifamily Building Permits by Year Colorado Ski Counties, 1990 to 2022
