<p><u>Childcare Provider Incentive to Serve Children Enrolled in State of UT DWS Childcare Assistance</u></p> <p>\$21,600 disbursed (2024 to date)</p>	<ol style="list-style-type: none"> The child's household a Park City resident or workforce Up to Kindergarten age Childcare facility in Summit County 	<ul style="list-style-type: none"> \$300 per child per month, paid to the provider and not meant to offset the household's tuition 	<p>Intent is to incentivize providers to accept the UT DWS program support that carries administrative burden, payment timelines, etc.</p>

PARK CITY MUNICIPAL CORPORATION (PCMC) *CHILDCARE PILOT PROGRAMS*

Program began January 2024 with a \$1,000,000 budget

- Partnered with Upwards for administration including applicant qualification
 - 15% Upwards administration fee is paid by the Park City Community Foundation
- ~\$150,000 spent through August 2024; ~\$50,000 in September 2024 alone
- All payments are made to the provider, not to the household

~190 applications have been received

- 107 children enrolled; ~80% single child per household; 27 childcare providers (regulated by State of UT) – *approximately*:
 - 10% PCMC employees; 40% Park City workforce; 50% Park City residents
- 20% new UT DWS enrollments – *a program goal!*

All other funding must be exhausted before the program kicks in

- The UT DWS subsidy phases out around 50-60% AMI depending on household size
- No double dipping across program elements, flat amounts count towards calculations

The pilot is complementary to other initiatives

- Authorized a \$70/year lease to a nonprofit childcare provider at the Park City Library (previously a limited hours childcare co-op) with 20 spaces
 - 10 of those spaces are prioritized for PCMC employees, residents, then workforce
- Identifying opportunities to create additional childcare capacity through our Land Management Code

Future considerations

- How do we get more support to our lowest income population?
 - Only ~25% of current enrollments are below 85% AMI
 - Should multiple children in a household be subject to a step structure such as 7%/12% rather than a flat 10%?
- Park City School District is starting a universal Pre-K program
 - Tuition will be required; times may be limited
- UT requires documented status to be eligible for DWS support
 - Currently Park City does not, and does not verify that applicants pay State or Federal tax
